A call was in circulation yesterday, which is said to have received a number of signatures, for an indignation meeting to be held last night at Library Hall to protest against the action of the ward clubs on Saturday night last in electing delegates to the city nominating convention. The matter became public during the day, and at night a large erowd of anti-indignation Conservatives assembled in the neighborhood, and things promised to be very lively in case the meeting was held. The signers of the call, however, wisely decided not to meet, and peace

reigned. Business moves steadily, with a fair trade doing in all the leading articles for general consumption. With the very cheering crop prospects there is manifestly a much more hopeful feeling among both merchants and farmers. The present crop is believed to be the hest since the war. New cotton is expected to arrive earlier this season than for many years past.

While the cotton market is much depressed there is increased activity in tobacco, with a large business doing both to shippers and ananufacturers. The falling off in the receipts gives holders confidence in the small stocks on band, and the prices realized yesterday and to-day were fully up to the highest point of the season. There was an advance of fully \$1.50 per hundred pounds on all grades, and buxers from other markets held off, not being able to operate with any ROBIN HOOD. profit.

The conclusion reached by the Police Justice is the same that seized the public mind as soon as the evidence and arguments were heard.

There is no appeal for Mr. Weatherford; if, indeed, there is any wish for an appeal. The vessel, which had been in custody of the officers of the law since last Friday, was released immediately after the rendering of the decision, and having obtained her clearaoce yesterday afternoon sailed for Liverpool amid the jubilations of a large number

of gentlemen who assembled to see her off. Many tobacco dealers while regretting the detention of the Tarpeian, and the loss to the shippers incurred, and the probable damage done this port by the summary seizure of the tobacco, yet congratulate themselves that this question of the reinspection of strips has been definitely settled, and express the hope that the Legislature will shortly after assembling either repeal the inspection laws alto gether or amend them in important particu-

DUNCAN, SHERMAN & CO.

Their Letters of Credit all Bight. WHAT DREXEL, MORGAN & CO. THINK OF

THE FAILURE, &c.

NEW YORK, July 28 .- William Butler Duncan says in regard to persons now abroad who bave Duncan, Sherman & Co.'s letters of credit: "Assure all friends of such parties that every arrangement has already been made to prevent them from experiencing any trouble. They are all right. Neither they nor their friends have any occasion to bor row trouble. They are in such a situation that they can move hither and thither precisely the same as if nothing had happened to 118."

Messrs. Drexel, Morgan & Co. said to a Herald reporter: "It has been known that Duncan, Sherman & Co. have been largely engaged in cotton transactions, their agent in London being Mr. Kitchen, of the firm of Collie & Co., who placed all the cotton shipped by the firm, making his sales of cotton 'to arrive' to spinners in England and on the Continent. Within the last four weeks cotton has fallen about three cents per pound. Now, supposing that they had 25,000 bales in transitu-not a large amount for them, but a heavy amount for other firms-their loss would be about \$375,000—certainly not enough to send them under; but we hear that they are also largely interested in the Mobile and Ohio, Atlantic and Great Western, and slightly in the Erie roads."

It is stated that among the heaviest losers is the Mexican consul at this port, whose individual and consulate funds were on deposit with the suspended tirm.

On Monday last Mrs. Sarah M. G. Sherof the firm of Duncan, Shermin & Co., made a transfer of real estate in this city to A. Duncan amounting to \$385,000. BANK OFFICERS SURPRISED AT THE SUSPENSION.

NEW YORK, July 28 .- The President of the State Bank of New York, where the suspended firm kept their accounts, says that the suspension of the firm had caused him much surprise, as no intimation in any shape had been given to the officers of the bank when they opened that the suspension was contemplated. He thought he could say that his bank held some \$300,000 or \$400,000 in securities of Duncan, Sherman & Co., all of which was available stock. the broken place in the pavement opposite Spott's jewelry store, on Main street.

THE EFFECT OF THE SUSPENSION ABROAD. London, July 28 -The suspension of Duncan, Sherman & Co. has no appreciable effect on the general market here.

cans in that city. The Rothschilds gave novoring to purchase junk to sell to dealers tice early to-day that they would not honor without having obtained a license. Found the credits of the firm. They even attempted to recover moneys which were paid to-day at their house before it was aware of the failure. Their agent took a gentleman wno refused to refund before Minister Washburne, who supported the latter in his refusal to refund. The feeling among the Americans is very bitter.

More Heavy Failures.

NEW YORK, July 28 .- The Commercial Warehouse Company has failed. The cause was heavy advances on Cuban crops, which the early rains destroyed. The house also advanced largely on railroad securities which depreciated. Liabilities, \$1,500,000.

It is stated that the assests of the concern, which are not available, will foot up 84,000,000. PHILADELPHIA, July 28 .- John Macon & Co., sugar dealers, have suspended. Lia-

THE TRIAL OF THE COLLIES. The trial of Alexander and William Collie, of the late firm of Alexander Collie & Co., on the charge of obtaining money unproceedings it was adjourned for a week. IN THE HOUSE OF COMMONS

this afternoon Sir Charles Adderly, president of the Board of Trade, introduced a bill further to empower the Board of Trade to pre vent unseaworthy vessels from sailing. their Toller OUTFITS from MEADE & BAKER, as presenting the measure he stated that Mr. Plimsoll's bill was not acceptable to the Government because it was based on the wrong

Here he was interrupted by cries of " No." Continuing his remarks, he said : " The bill is also objectionable because beside punishing offenders it actually takes upon itself the con duct of the marine service. The act of 1872 unseaworthy ships. Since then 953 vessels had been stopped, of which 515 were found unseaworthy. The present bill was intended to strengthen the Executive, facilitate more rapid and direct action, and provide a sufficient number of officers to effectually detain unseaworthy ships. It also allows a fourth part of the crew to demand a survey. Finally, it is merely an earnest of fuller

egislation next session." Mr. Sullivan thought the load-line provision for stowing grain should be engrafted in the bill. Mr. Roebuck denied that the bill would satisfy the country. He advocated continu-ing the consideration of Mr. Plimsoli's bill.

Other members followed, more or less censuring the bill, while wishing to extricate the Government from its difficulty. Finally the bill passed its first reading. The second reading is fixed for Friday morn-

Minnesota Politics. Sr. Paul, July 28 .- The Republican State Convention met to-day, a large number of, delegates being in attendance. John G. Pitts-burg was nominated for Governor. The icket nominated is regarded as a victory of the regular or business-men over the Davis faction: Every candidate nominated was a strong friend of Ramsey during the sena-

torial contest last winter. Resolutions were adopted expressing the belief that the choice of the judges should not be a party matter, and recommending the return of the present incumbents. The resolutions reaffirm the principles of

the Republican party, favor that financial policy which keeps in view a return to specie-payments, hold to a tariff strictly for evenue, and would regard a third term a augerous innovation. "Ten Years in the Priesthood."
